Tri-Tech Buzzer - 7000 Series

- ~ Same as 22170 but having molded-in terminals in place of molded-in lead wires
- ~ Adjustable Volume Control can be provided by an optional factory or customer installed screw
- ~ Encapsulated Coil
- ~ Can be mounted from below using self threading screw into molded-in nylon tube
- ~ Typical AC voltages available: 24, 120 and 220 VAC

Applications:

- ~ Household appliances
- ~ Laboratory instruments
- ~ Electronic assemblies
- ~ Plant engineering
- ~ Materials handling systems
- ~ Space heaters
- ~ Vending machines
- ~ Elevators
- ~ Commercial cooking appliances
- ~ Industrial equipment.

Features:

- ~ Custom designed for your needs
- ~ Designs for almost any AC or pulsating DC voltage and frequency
- ~ Capable of producing up to 80db at 3 feet (depending on model and configuration).
- ~ Coil is nylon encapsulated by injection molding, making coil resistant to dirt, moisture, and corrosion.

Options/Accessories:

- ~ Designs from 6-220 volts AC 60-cycle circuits
- ~ Variety of lead lengths and colors
- ~ Variety of mounting configurations (some models can be mounted from below using a self-threading screw)
- ~ Wire size and number of turns according to customer specifications
- ~ Custom stamping available for customer names or part numbers
- ~ Lead wires or terminals can be specified for connection to the coil

Approvals:

UL Recognized (File No. S1654) CSA Certified Appliance Buzzer (Report No. LR 37812)

Additional Information:

Standard production samples furnished on request. Prototype designs available through special arrangement with our sales department.
